As you are selected and invited to meet in this place on a council, on the sixth of March, my Father Doc. David H. Grosvenor would be happy to have you receive entertainment at his house.

We feel very anxious that you should be present, should your health permit but should providence indicate otherwise will you do us the favour to inform us by return of mail.

It would be gratifying to our feelings and also to many in this community if you would permit us to give an appointment next Sabbath for you to lecture in this place on the subject of Slavery, but we would not be exorbitant on our drafts upon your energies
